INDEPENDENT AUDITORS' REPORT

Board of Directors
Lake Dallas Community Development Corporation
Lake Dallas, Texas

We have audited the accompanying financial statements of the governmental activities and each major fund of the Lake Dallas Community Development Corporation (the "Corporation"), as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the Corporation's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standard* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Lake Dallas Community Development Corporation as of September 30, 2014, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis* on pages 5 through 9 and the budgetary comparison information on page 29, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 14, 2015 on our consideration of the Lake Dallas Community Development Corporation's internal control over financial reporting and on our test of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Lake Dallas Community Development Corporation's internal control over financial reporting and compliance.

**LAKE DALLAS COMMUNITY
DEVELOPMENT CORPORATION**

MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2014

As management of the Lake Dallas Community Development Corporation, we offer readers of the Corporation's financial statements this narrative overview and analysis of the financial activities of the Corporation for the year ended September 30, 2014. We encourage readers to consider the information presented here in conjunction with the Corporation's basic financial statements.

Financial Highlights

- The assets of the Corporation exceeded its liabilities at September 30, 2014 by \$451,558. All of this amount is available to meet the Corporation's objective of promoting community development.
- The Corporation's total net position increased by \$87,975.
- As of September 30, 2014, the Corporation's governmental funds reported combined ending fund balances of \$451,558, an increase of \$87,975 in comparison with the beginning of the year. \$383,104 of this amount is available for spending at the Corporation's discretion (*unassigned fund balance*).

Overview of the Financial Statements

The management discussion and analysis are intended to serve as an introduction to the Corporation's basic financial statements. The Corporation's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the Corporation's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Corporation's assets and liabilities, with the difference between the two reported as net position. Over time, increase or decreases in net position may serve as a useful indicator of whether the financial position of the Corporation is improving or deteriorating.

The statement of activities presents information showing how the Corporation's net position changed during the most recent period. All of the current period's revenues and expenses are taken into account regardless of when cash is received or paid. Both the statement of net position and the statement of activities are prepared utilizing the accrual basis of accounting as opposed to the modified accrual basis used in prior reporting models.

In the Statement of Net Position and the Statement of Activities, the Corporation is divided between two kinds of activities:

- **Governmental activities.** All of the Corporation's basic services are reported here. Primarily sales taxes finance those services.

**LAKE DALLAS COMMUNITY
DEVELOPMENT CORPORATION**

MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2014

- **Business-type activities.** The Corporation may charge a fee to customers to help it cover all or most of the cost of certain services it provides. The Corporation had no business-type activities during the current period.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund financial statements provide detailed information about the most significant funds, not the Corporation as a whole. Some funds are required to be established by state law or bond covenants. However, the Board of Directors may establish other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants and other money. All of the funds of the Corporation are considered governmental funds.

Governmental Funds. All of the Corporation's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at period-end that are available for spending. These funds are reported using an accounting method identified as the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Corporation's general operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the Corporation's programs. By comparing information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government's near-term financing decisions. The relationship or differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is detailed in a reconciliation following the fund financial statements.

The Corporation maintains one individual governmental fund. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the Corporation's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The Corporation does not currently have any fiduciary funds.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and funds financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information highlighting budgetary information for the general fund.

DEVELOPMENT CORPORATION**

MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2014

Government-wide Financial Analysis

The Corporation's combined net position was \$451,558 as of September 30, 2014. The Corporation first implemented GASB Statement No. 34, *Basic Financial Statement – and Management's Discussion and Analysis – for State and Local Governments*, for fiscal year 2004. The following analysis presents both current and prior year data and discusses significant changes in the accounts. This analysis focuses on the net position (Table 1) and general revenues (Table 2) and changes in net position (Table 3) of the Corporation's governmental activities.

Table 1

Financial Analysis of the Government's Funds

Governments Funds. The focus of the Corporation's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Corporation's financing requirements. In particular, unassigned fund balance may serve as a useful measure of government's net resources available for spending at the end of the period.

As of the end of the current period, the Corporation's governmental funds reported combined ending fund balances of \$451,558, an increase of \$87,975 in comparison with the beginning of the period. \$383,104 of this amount constitutes unassigned fund balance, which is available for spending at the Corporation's discretion.

General Fund Budgetary Highlights

During the current year, the Board of Directors of the Corporation did not amend the Corporation's budget.

The original budget reflected that the activity for the year would increase available fund balance by \$81,000. The available fund balance for the general fund actually increased in the amount of \$87,975. This difference was primarily due to more sales tax revenue than expected.

NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Lake Dallas Community Development Corporation (the "Corporation") are presented in accordance with generally accepted accounting principles applicable to state and local governmental units as set forth by the Governmental Accounting Standards Board ("GASB").

In fiscal year 2004, the Corporation implemented GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for the State and Local Governments*, GASB Statement No. 37, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments: Omnibus* which provides additional guidance for the implementation of GASB Statement 34, GASB Statement No. 38, *Certain Financial Statement Disclosures*, which changes note disclosures requirements for governmental entities, and GASB Interpretation No. 6, *Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements*, which clarifies the application of standards for modified accrual recognition of certain liabilities and expenditures in areas where difference have arisen, or potentially could arise, in interpretation and practice of GASB Statement No. 34.

GASB Statements No. 34 established a new financial reporting model for state and local governments that included the addition of management's discussion and analysis, government-wide financial statements, required supplementary information and the elimination of the use of account groups to the already required fund financial statements and notes. GASB Statement No. 37 provides additional guidance in reporting infrastructure, program revenues and major criteria.

The GASB determined that fund accounting has and will continue to be essential in helping governments to achieve fiscal accountability and should, therefore, be retained. The GASB also determined that the government-wide financial statements are needed to allow users of financial reports to assess a government's operational accountability. The new GASB model integrates fund-based financial reporting and government-wide financial reporting as complementary components of a single comprehensive financial reporting model.

The following is a summary of the more significant accounting policies.

A. Reporting Entity

Lake Dallas Community Development Corporation is a Texas non-profit industrial development corporation formed on January 1, 2003 under the Development Corporation Act of 1979, with the approval of the City Council of the City of Lake Dallas, Texas, and governed by Section 4B of the Act. The Corporation is managed by a seven-member Board of Directors.

**LAKE DALLAS COMMUNITY
DEVELOPMENT CORPORATION**

NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

The purpose of the Corporation is to promote economic development within the City of Lake Dallas, Texas in order to eliminate unemployment and underemployment, to promote and encourage employment and the public welfare of the City, and to provide parks, park facilities and municipal buildings such as library facilities by developing, implementing and financing such projects. The primary source of funding for the Corporation is a one-quarter cent sales tax approved by the voters of the City of Lake Dallas in Fall, 2002.

The accompanying financial statements present the Corporation and its component units, entities for which the Corporation is considered to be financially accountable. The criteria for including organizations as component units within the Corporation's reporting entity, as set forth in Section 2100 GASB's Codification of Governmental Accounting and Financial Reporting Standards, include whether:

- the organization is legally separate (can sue and be sued in their own name)
- the Corporation holds the corporate powers of the organization
- the Corporation appoints a voting majority of the organization's board
- the Corporation is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the Corporation
- there is fiscal dependency by the organization on the Corporation

No component units, as defined by GASB standards, have been identified for inclusion in the reporting entity. However, because the Board of Directors of the Corporation are appointed by and serve at the pleasure of the City Council of the City of Lake Dallas, and because the Corporation exists primarily to benefit the City of Lake Dallas, the Corporation's financial activity is also included as a component unit in the financial statements of the City of Lake Dallas, Texas.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the Corporation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The Corporation had no business-type activities during the period.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

**LAKE DALLAS COMMUNITY
DEVELOPMENT CORPORATION**

NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded for the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. The Corporation had no proprietary funds or fiduciary funds during the period.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Corporation considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Sales taxes and interest associated with the current fiscal period are both considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the Corporation. The amount shown as sales tax receivable on the balance sheet consists of sales tax received from the State in October and November, 2014.

The Corporation reports the following major governmental fund:

General Fund – The General fund accounts for the resources used to finance the fundamental operations of the Corporation. It is the basic fund of the Corporation and includes all activities except those required to be accounted for in another fund. Currently, the Corporation uses no funds other than the General Fund.

Program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided; 2) operating grants and contributions; and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

D. Cash and Investments

The Corporation's cash consists of demand deposits. The Corporation's investments consists of deposits in State investment pools.

**LAKE DALLAS COMMUNITY
DEVELOPMENT CORPORATION**

NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

E. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

F. Net Position

Net position represents the difference between assets and liabilities. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Corporation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

G. Budgets and Budgetary Accounting

The Corporation follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. A proposed operating budget for the fiscal year commencing the following October 1, is submitted to the City of Lake Dallas City Council. The operating budget includes proposed expenditures and the means of financing them for the general fund.
- b. A public hearing is conducted to obtain taxpayer comments.
- c. The budget is legally enacted through passage of an ordinance.
- d. Any revisions that alter the total expenditures for governmental type funds must be approved by the City of Lake Dallas City Council.

The budget for the general fund is adopted on a basis consistent with generally accepted accounting principles (GAAP). The budget was not amended during the year by the Corporation.

H. Fund Balance

The Corporation implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions" in a prior year. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent.

Fund Balance Classification: The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the Corporation is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

**LAKE DALLAS COMMUNITY
DEVELOPMENT CORPORATION**

NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

- Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The Corporation has no nonspendable fund balance at September 30, 2014.
- Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The Willow Grove Park project funds are to be used for future construction and renovation projects and are restricted through bond orders and constitutional law.
- Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Corporation's Board of Directors. The Board of Directors establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This can also be done through adoption and amendment of the budget. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The Corporation has no committed fund balance at September 30, 2014.
- Assigned: This classification includes amounts that are constrained by the Corporation's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Directors or through the Board of Directors delegating this responsibility to other individuals in the Corporation. Under the Corporation's adopted policy, only the Board of Directors may assign amounts for specific purposes. The Corporation has assigned no fund balance at September 30, 2014.
- Unassigned: This classification includes all amounts not included in other spendable classifications, including the residual fund balance for the General Fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Corporation considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Corporation considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Directors has provided otherwise in its commitment or assignment actions.

The policy of the Board of Directors expresses an intent to maintain a level of assigned and unassigned fund balance in the general fund equal to 25 percent of the fund's operating expenditures.

The details of the fund balances are included in the Governmental Funds Balance Sheet on page 16.

DEVELOPMENT CORPORATION**

NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

2. DEPOSITS AND INVESTMENTS

The Corporation's funds are required to be deposited and invested under the terms of a depository agreement. The depository bank deposits for safekeeping and trust with the Corporation's agent bank approved pledged securities in an amount sufficient to protect Corporation funds on a day-to-day basis during the period of the agreement. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

1. Cash Deposits:

At September 30, 2014, the carrying amount of the Corporation's deposits in checking accounts was \$20,355 and the bank balance was \$20,938. The Corporation's cash deposits at September 30, 2014 were entirely covered by FDIC insurance or by pledged collateral held by the Corporation's agent bank in the Corporation's name.

2. Investments:

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the Corporation to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the Corporation to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptance, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the Corporation to have independent auditors perform test procedures related to investment practices as provided by the Act. The Corporation is in substantial compliance with the requirements of the Act and with local policies.

In compliance with the Public Funds Investment Act, the Corporation has adopted a deposit and investment policy. That policy addresses the following risks:

- a. **Custodial Credit Risk – Deposits:** In the case of deposits, this is the risk that, in the event of a bank failure, the Corporation's deposits may not be returned to it. As of September 30, 2014, the Corporation's cash balances totaled \$20,938. This entire amount was either collateralized with securities held by the Corporation's financial institution's agent in the Corporation's name or covered by FDIC insurance. Thus, the Corporation's deposits are not exposed to custodial credit risk.

**LAKE DALLAS COMMUNITY
DEVELOPMENT CORPORATION**

NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

- b. Custodial Credit Risk – Investments: For an investment, this is the risk that, in the event of the failure of the counterparty, the Corporation will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At September 30, 2014, the Corporation held all of its investments in the LOGIC and TexStar public funds investment pools. Investments in external investment pools are considered unclassified as to custodial credit risk because they are not evidenced by securities that exist in physical or book entry form.
- c. Credit Risk: This is the risk that an issuer or other counterparty to an investment will be unable to fulfill its obligation. The rating of securities by nationally recognized rating agencies is designed to give an indication of credit risk. The credit quality rating for LOGIC and TexStar at year-end was AAA (Standard & Poor's).
- d. Interest Rate Risk: This is the risk that changes in interest rates will adversely affect the fair value of an investment. The Corporation manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to less than one year from the time of purchase. The weighted average maturity for the LOGIC and TexStar investment pools is less than 60 days.
- e. Foreign Currency Risk: This is the risk that exchange rates will adversely affect the fair value of an investment. At September 30, 2014, the Corporation was not exposed to foreign currency risk.
- f. Concentration of Credit Risk: This is the risk of loss attributed to the magnitude of the Corporation's investment in a single issuer (i.e., lack of diversification). Concentration risk is defined as positions of 5 percent or more in the securities of a single issuer. Investment pools are excluded from the 5 percent disclosure requirement.

The Corporation's investment at September 30, 2014 is shown below:

<u>Name</u>	<u>Carrying Amount</u>	<u>Market Value</u>
TexStar Investment Pool	\$ 68,454	\$ 68,454
LOGIC Investment Pool	<u>304,613</u>	<u>304,613</u>
Total	<u>\$ 373,067</u>	<u>\$ 373,067</u>

3. EXPENDITURES BY CHARACTER

The format of the Statement of Revenues, Expenditures, and Change in Fund Balance-Governmental Funds shows expenditures classified by project, meaning capital outlay directly associated with a particular project is charged to that account. Expenditures by character are as follows:

Current	\$ 147,802
Capital outlay	<u>-</u>
Total	<u>\$ 147,802</u>

**LAKE DALLAS COMMUNITY
DEVELOPMENT CORPORATION**

NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

Capital outlay expended by the Corporation during the current year is not considered a capital asset of the Corporation but is capitalized by the City of Lake Dallas as capital assets expended for the City's benefit.

4. TRANSFERS OUT

Transfers out of \$115,135 consists of funds transferred to the City of Lake Dallas, under terms of written agreements with the City, to use in making long-term debt payments on the Series 2006 and Series 2009 Certificates of Obligation. The Corporation has committed to continued future contributions toward the Series 2006 and Series 2009 Certificates of Obligation annual debt service requirements, based on the portion of the proceeds used by the Corporation.

5. SUBSEQUENT EVENTS

Management has reviewed events subsequent to September 30, 2014 through January 14, 2015, which is the date the financial statements were available to be issued. No subsequent events were identified that were required to be recorded or disclosed in the financial statements.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Directors
Lake Dallas Community Development Corporation
Lake Dallas, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Lake Dallas Community Development Corporation (the "Corporation"), as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise The Lake Dallas Community Development Corporation's basic financial statements, and have issued our report dated January 14, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Corporation's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Corporation's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Corporation's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Corporation's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Corporation's internal control or on compliance. This report is an integral part of the audit performed in accordance with *Government Auditing Standards* in considering the Corporation's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
