Start Date: \_\_\_\_\_

Estimated Completion Date: \_\_\_\_\_

# of Trees	Species (Common Name)	Diameter (DBH) at 4.5 ft.	If applicable- inside or outside buildable area?

With this form, please include all required backup documentation (listed in Section 42-86 of Lake Dallas Municipal Code), which includes:

- Tree Survey: showing exact locations, sizes (trunk diameters and height) of all trees to be removed
- 2 copies of legible site plan in the largest practical scale showing the following:
  - Location of all existing and proposed structures with their dimensions
  - Property lines, setbacks, yard requirements
  - Existing and proposed site evaluations, grades, major contours
  - Location of all existing and proposed utility easements

**Sec. 42-87. - Tree replacement.**

- a) If it is necessary to remove trees outside the buildable area, the developer, as a condition to issuance of a tree removal permit, shall be required to replace the trees being removed with new trees having a total caliper width equivalent to the width of the tree(s) removed elsewhere within the site or lot.
- b) Such replacement trees shall be a minimum of three (3) caliper inches and seven (7) feet in height at the time of planting. Replacement trees shall be selected from the list of approved replacement trees maintained by the City.

I hereby agree that if a permit is issued, all the provisions of the City Ordinance and State Laws will be complied with, whether specified or not.
